[Verse 1]

D

I hate that we re sleepless now

I hate we don t talk things out

Bm

G

I hate that there s a thousand miles from my side to your side

D

Words don t come easily

When you ve got your back to me

Bm

G

Now there s a space too wide that s left us with wondering eyes

[Chorus]

D

Why don t your touch feel like it used to do?

Bm

Is it because I got used to you?

G

Why don t your touch feel like it used to do?

D

Is it because I got used to you?

I m missing my heart race

Bm

And how your kisses were my favourite taste

G

But nothing s feeling like it used to do

D

Is it because I got used to you?

[Verse 2]

D

Is there a pill we can take

To lift us to a higher place?

Bm

So that our love don t fade

G

And make our touch feel the same

D

I look back on those first nights

We laid under those blue skies

Bm

Eight days, I m losing time

G

Only you on my mind

Bm

G

Oh, I was so lost in your brown eyes

[Chorus]

D

Why don t your touch feel like it used to do?

Bm

Is it because I got used to you?

G

Why don t your touch feel like it used to do?

D

Is it because I got used to you?

I m missing my heart race

Bm

And how your kisses were my favourite taste

G

But nothing s feeling like it used to do

D

Is it because I got used to you?

Bm G

Is it because I got used to you?

[Bridge]

D

Was I addicted to the rush?

Bm

Was I in love, or loved the lust?

G

Cause now when I look at you

D

I don t know what is real

Bm

What if I open up to you and you thought about it, too?

G

Have you thought about it, too?

Then nothing s feeling like it used to

[Chorus]

D

Why don t your touch feel like it used to do?

Bm

Is it because I got used to you?

G

Why don't your touch feel like it used to do?

D

Is it because I got used to you?

I'm missing my heart race

Bm

And how your kisses were my favourite taste

G

But nothing's feeling like it used to do

D

Is it because I got used to you?

Bm G

Is it because I got used to you?

[Outro]

D

I never thought I'd get used to you

Bm

I never thought I'd get used to you
