

It fills the silence when you can't believe your name  
**Fm**                        **C#**                                        **G#**                                        **Eb**  
But I'm not your witness, I won't answer your questions  
**Fm**                        **C#**                                        **G#**                                        **Eb**  
You're just a lonely man who needs someone to blame

Chorus

**C#**                                        **Fm**    **C#**                                        **Fm**  
But I'm a lonely girl, na, na, na, na, na  
**C#**                                        **Fm**    **C#**                                        **Fm**  
And I can change the world, and everything I am  
**C#**                                        **Fm**    **C#**                                        **Fm**  
But I'd rather be alone, I'd rather be alone  
**C#**  
Than someone...

Bridge

**C#**                                        **G#**                                        **Eb**  
And I know the feeling when love is a stranger  
**C#**                                        **G#**                                        **Eb**  
And you've never been in such beautiful danger  
**C#**                                        **G#**                                        **Eb**  
And I know the feeling when love is a stranger  
**C#**                                        **G#**                                        **Eb**  
And you've never been in such beautiful danger

Chorus

**C#**                                        **Fm**    **C#**                                        **Fm**  
Because I'm a lonely girl, na, na, na, na, na  
**C#**                                        **Fm**    **C#**                                        **Fm**  
And I could change the world and everything I am  
**C#**                                        **Fm**    **C#**                                        **Fm**  
Yeah, I'm a lonely girl, na, na, na, na, na  
**C#**                                        **Fm**    **C#**                                        **Fm Eb**  
And I could change the world and everything I am  
**C#**                                        **Fm**    **C#**                                        **Fm**  
But I'd rather be alone, na, na, na, na, na  
**C#**                                        **Fm**    **C#**                                        **Fm**  
I'd rather be alone than someone you take home

**Fm, C#, G#, Eb** x2

**Fm**
