

It fills the silence when you can't believe your name

**Ebm**                    **B**                                    **F#**                                    **C#**  
But I'm not your witness, I won't answer your questions  
**Ebm**                    **B**                                    **F#**                                    **C#**  
You're just a lonely man who needs someone to blame

Chorus

**B**                                    **Ebm**                    **B**                                    **Ebm**  
But I'm a lonely girl, na, na, na, na, na  
**B**                                    **Ebm**                    **B**                                    **Ebm**  
And I can change the world, and everything I am  
**B**                                    **Ebm**                    **B**                                    **Ebm**  
But I'd rather be alone, I'd rather be alone  
**B**  
Than someone...

Bridge

**B**                                    **F#**                                    **C#**  
And I know the feeling when love is a stranger  
**B**                                    **F#**                                    **C#**  
And you've never been in such beautiful danger  
**B**                                    **F#**                                    **C#**  
And I know the feeling when love is a stranger  
**B**                                    **F#**                                    **C#**  
And you've never been in such beautiful danger

Chorus

**B**                                    **Ebm**                    **B**                                    **Ebm**  
Because I'm a lonely girl, na, na, na, na, na  
**B**                                    **Ebm**                    **B**                                    **Ebm**  
And I could change the world and everything I am  
**B**                                    **Ebm**                    **B**                                    **Ebm**  
Yeah, I'm a lonely girl, na, na, na, na, na  
**B**                                    **Ebm**                    **B**                                    **Ebm C#**  
And I could change the world and everything I am  
**B**                                    **Ebm**                    **B**                                    **Ebm**  
But I'd rather be alone, na, na, na, na, na  
**B**                                    **Ebm**                    **B**                                    **Ebm**  
I'd rather be alone than someone you take home

**Ebm, B, F#, C#** x2

**Ebm**
