

**Tonight I Will Retire Acoustic**  
**Damien Jurado**

Alright, Damien finger picks through this entire song, and the pattern that he does raises the difficulty level to intermediate, I think. I tabbed this by ear from this video: <http://www.youtube.com/watch?v=RIOHSrZPitI>  
I'm 99% sure that everything here is correct. Listen to the song to figure out the picking/strumming pattern. Pretty easy once you get the hang of it. Also, this is probably the best suicide song I've ever heard.

Chords relative to capo.
