

I Remember
Damien Rice

I saw one chord version of this song here..but the chords were off and some were missing. I play it with a capo on 2nd, but you should play it where it best suits

your voice..don t try to imitate perfectly. DON T STRUM IT. The picking is for you to improvise..No need for anything fancy. Try to do the song some justice. Good luck!

C/B:

```
|-----  
|--1--  
|-----  
|-----  
|--2--  
|-----
```

Am C/B C
I remember it well
F G
The first time that I saw
F G
Your head around the door
Am C/B C
Cause mine stopped working

Am C/B G
I remember it well
F G
There was wet in your hair
F G
I was stood in stare
Am C/B C
And time stopped moving

C
I want you here tonight
G
I want you here

C **F**
Cause I can t believe what I found
C **G**
I want you here tonight want you here
C **F** **Am**
Nothing is taking me down, down, down...

(Repeat chords as before)
