INTRO **F# B9 F# B9**

F#

My consciousness wakes

B9

As the sun light breaks

F#

B9

Your face appears in my sleepy mind

F#

Im not sure where to go

B9

I wanna go back to bed

F#

Turn the room to black

B9

But there you are in my head

C#9

I turn up, I turn up the radio

B9

So loud that it drags you out

C#9

B9

C#

Your voice is in my head saying I wont let you down

F#

But, I cant love you now

C#9

And I dont know how

B9

B9

C#

Youre like a beautiful disease, taking over inside of me

F#

When I close my eyes

C#9

Try to sleep at night

B9

Youre always draggin me down

B9 **C#**
So I cant love you, love you now
F#
I gotta leave this place
B9
When all I see here is your face
F# **B9**
Im getting in my car, never looking back
F#
Youre the worst thing for me
B9
Maybe youre all I really need
F# **B9**
All I know is this were not our time
C#9
I turn up, I turn up the radio
B9
So loud that it drags you out
C#9 **B9** **C#**
Your voice is in my head but I gotta leave this town
F#
I cant love you now
C#9
And I dont know how
B9 **B9** **C#9**
Youre like a beautiful disease, taking over inside of me
F# **C#9** **B9**
When I close my eyes, Try to sleep at night
B9
Youre always draggin me down
C#9 **C#** **F#**
So I cant love you, love you now
B9
So tell me, tell me
C#9
To come back to sleep again
B9
And donâ€™t let me, let me
F#
Be here waiting til its over
B9
Just tell me, tell me
C#
That this was all a dream
F#
I cant love you now
C#9
And I donâ€™t know how
B9 **B9** **C#9**
Youre like a beautiful disease, taking over inside of me
F#
When I close my eyes
C#9

Try to sleep at night

B9

You're always draggin me down

B9 **C#9**

So I can't love you, love you now

F# C#9 **B9**

Oh I can't love you now

F#

C#9

Oh You're like a beautiful disease, taking over inside of me

B9 **C#9**

So I can't love you, love you now
