I loved you when you were in the 7th grade
Eb/F#

You had other things going on
At 17 you started looking my way
At 17 I was already gone

I heard out of high school you got married
And I went off to find it on the coast
Communication kinda got buried
But I still thought of you the most

G# **G#/C G#** **Eb/F#**

I don t wanna die wondering about you

Every now and then I think about you
You were living some place out west
I heard your husband was without you
Then you had another one so fast

At the reunion I saw you from up above
Couldn t help but thinking something s wrong
Maybe you were looking too hard for love
Maybe you had it all along
