**D**

Last time I talked to you

**G**

you were lonely and out of place

**Em**

You were looking down on me

**G**

lost out in space

Laid underneath the stars  
strung out and feeling brave  
Watch the riddles glow  
watch them float away

Down here in the atmosphere  
garbage and city lights  
you gotta save your tired soul  
you gotta save our lives

Turn on the radio  
to find you on satellite  
I m waiting for the sky to fall  
I m waiting for a sign

Refrain:

**Em**

**G**

All we are is all so far

Chorus:

**D**

**Asus**

You re falling back to me

**G**

the star that I can't see

**Em**

I know you're out there

**G**

somewhere out there
