DRIVE  
CAPO 2

**Em - C - G - D X2**

**Em - C - G - D**

Drive a little further my dear  
You've arrived but not quite here,  
Get in my car and we'll disappear,  
I'm so glad to meet you, to meet you

**Em - D - C**

Ooo ooo Just another stary night  
Oooo ooo that summer dress looks just right  
Ooo oooo I never felt so uptight  
Oooooooooo could really use a friend tonight...

**Em - C - G - D**

I got a playlist that I made a just for you,  
If you want to skip one, that's cool  
You start to shake and you feel it too  
You aren't as nervous as I am, as I am

**Em - D - C**

Oooooo just another cloudy night  
Oooooo the breeze in your hair is nice  
Oooooo I never felt so enticed,  
Oooooo conversations way passed midnight

**Em - C - G - D**

It's getting darker, and we're getting closer,  
Well Night drinks well they're hard to fight,  
Silly dancing and laughing baby,  
Later on, some candle lights  
Do you know how lovely you are  
When you're standing next to me,  
I don't feel like I'm wrong here baby,  
So will you come lie down with me

**Em - D- C**

Just another stormy night

Oooo ooo You look at me with bedroom eyes  
Ooo ooo I never felt so alive  
Oooooooooo together until its light

**Em - D- C X2**

**Em - D- C**

Oooooo you look at me with bedroom eyes,  
Oooooo I never more alive,  
..... never felt So Alive  
..... never felt So Alive...
