CAPO 7
[Intro]
[Verse 1]
Em
                     G
I don't know what you've been told
                      G
But I don't get out much these days
Waking young and feeling old
The days are no longer my own
                G
                                C
To piss away the waking hours
[Chorus]
But don't, don't, don't
     C
Don't let them go
Em
Don't, don't, don't
Don't let them go to waste
The fire in my eye is fleeting now
Your robot heart is bleeding
[Verse 2]
               G
Tried to be the robot king
                 G
And settled for a robot boy
Ring the bells that still can ring
And sing your stupid head off to
             G
                         C
The ones who are not listening
```

```
[Bridge]

G
D
And I ve spend half of my life

Em
In the customer service line
C
Flaws in the design
G
A sign of the times

D
And that little voice
Em
In the back of your mind
C
Just wants you to know
C
Just hopes that you know
```
