```
My Side Of The Fence
Dan + Shay
[Verse 1]
These fancy things in magazines
Diamond rings and beauty queens
But nothin seems to sparkle like you do
These fine cigars and caviar
Expensive cars and movie stars
                                    G D
But everything I need is in this room
Oh, and I ve seen the lights from New York to Vegas
And I ve tasted wine from Venice to Paris
And I ve seen the sights
Nothin comparin to you
[Chorus]
                                     Em
So I ain t lookin over fences tryna find a better view
                        D
                                    Em
My search for all that ended when I first laid eyes on you
And the grass is always greener
 Cause the sun shines when you smile
And when I m holdin you the world makes sense
  D
On my side of the fence
[Instrumental]
G D Em C
[Verse 2]
If I ever win the lottery
It wouldn t mean a lot to me
                                         D
cause I already got you to hold my hand
```

```
And if a genie gave me a million wishes
I d spend them all on all your kisses
And save just one to stay right where I am
[Chorus]
So I ain t lookin over fences tryna find a better view
My search for all that ended when I first laid eyes on you
And the grass is always greener
Cause the sun shines when you smile
                    D
And when I m holdin you the world makes sense
On my side of the fence
[Bridge]
You re the rain on the roof in the summer
You re the leaves in the fall changing color
You re the whisper I hear in the thunder
On my side of the fence
You re the reason my heart s beating faster
You re the tears falling down from the laughter
You re the only one I m after
* Pause
[Chorus]
                                     Em
                        D
So I ain t lookin over fences tryna find a better view
                        D
                                    Em
My search for all that ended when I first laid eyes on you
And the grass is always greener
 Cause the sun shines when you smile
And when I m holdin you the world makes sense
Baby, when I m holdin you the world makes sense
On my side of the fence
* Pause
```

[Outro]

C

You know it does, baby ${f D} {f G}$ On my side of the fence

D Em C G
