[VERSE 1] [Played with above riff]  
I see the spirit moving  
In the very fabric of the universe  
I tell you so  
You see the power in your hands  
To ease the suffering of a dying child  
You tell me so

[VERSE 2]  
I reach for stars  
But you are keeping  
Both feet firmly planted  
On the ground  
Or so I've found  
I wrestle with eternal questions  
You wrestle with the here and now

**A**

Cause you're here now

[MIDDLE PART]

**Dm7**

It breaks my heart

**F C**

That your alluring eyes

**G F C**

Are blind to what I see

**Dm F**

It s tragic that the quests

**C**

That move our lives

**G F**

Are just so different

[CHORUS]

**C Dm**

But I could draw you into my heart

**Am F**

If your eyes weren t closed to me

**C Dm**

And I would draw you into the world

**Am F**

Behind the one you ll see

**Dm**

If I could speak my mind

**F Fm**

Then I could take you to secret places

**G#maj7 C**

Only ours to find

**Gm7 G#maj7**

Your spirit longs to breathe

**Gm7 C**

If only you d believe

[VERSE 3]

I look for miracles

And search for the miraculous

Along my way

You seem to say

The opposite is true for you

You just seem satisfied

With what you find each day

Your life s OK

[MIDDLE BIT]

Your spirit s lost and wandering in the sands

I swear I hear your voice

Crying save me from the desert

Take my hand

Lead me to water

[CHORUS]

But I could draw you into my heart  
If your eyes weren't closed to me  
And I could draw you into the world  
Behind the one you'll see  
If I could speak my mind  
Then I would take you to secret places  
Only ours to find  
Your spirit longs to breathe  
If only you'd believe
