The verse chords repeat themselves and the chorus chords play out the
yeah-yeah-yeahs at the end.
There is a riff for the intro. Play the bass notes for the following chords:

BsG, AsF#, **Em**, **C** (x2)

It sounds fine if you just strum:

G, **F#/D**, **Em**, **C** (x2)

Am **Em**
Everything must change
C **Em**
Theres a mirror showing me the ugly truth
Am **Em**
Im livin in the changin times
C **Em**
But Ive got nothing to give just a life to live
Am **Em**
If your world is without colour
C **Bm** **D**
I will carry you, if ya carry me

CHORUS:

G **F#/D**
Every little things gonna be alright
Em **C** **G**
Every little things gonna be alright, Yeah (x2)

Hold your face to mine
We can wage war against the world some other time
Come here and lay your head down for a while
Id do anything to make you smile

Yeah

Let your world be full of colour
I will carry you, if ya carry me, yeah

CHORUS

D **C** **G**

When its all falling down on you

D **C** **G**
Youre crying out but youâ€™re breakin in two

D **C** **G**
When its all crashing down on you
