

Dream Scream

Daniel Johnston

Gm7 Gm9 Gm7 Gm9 Gm7 Gm9

Iâ€™m having dreams about you
I wanna scream about you
Iâ€™m having dreams about you
I wanna scream about you
Everything youâ€™ve done
You were the girl who seemed to own the world
And everything was all about you
I took a chance to call you my own
I didnâ€™t know a thing about you

G#7M

I thought you could love

G

What a fool I was

There was going on, I was just singing my songs
There was something mad about you
I took it wrong, you liked my song
Why couldnâ€™t I have you?
A crazy dream, you done me wrong
You left me long
I couldnâ€™t stand a chance without you
You said that love was dead and in my head
And I just couldnâ€™t believe it
And on the phone you said you never knew me at all
And on the phone you said you never knew me at all
I thought there was love
What a fool I was
And everything was in hiper-jinx
Just like an old time movie
You donâ€™t understand, canâ€™t comprehend
I guess it doesnâ€™t really matter
And every dream a nightmare
And nothing really matters
I thought I was loved
What a fool I was
Iâ€™m having dreams about you
Iâ€™m having dreams about you
Iâ€™m having dreams about you
Iâ€™m having dreams about you
