```
True Love Will Find You In The End
Daniel Johnston
G
   True love will find you in the end
С
                                   G
  You ll find out just who was your friend
Em
                             Am
  Don t be sad, I know you will
С
                                                           G
  But don t give up until true love will find you in the end
   This is a promise with a catch
С
                                 G
   Only if you re looking can it find you
   Cause true love is searching, too
С
   But how can it recognise you
                G
  Unless you step out into the light, the light
Em
                             Am
  Don t be sad I know you will
С
                                                           G
   But don t give up until true love will find you in the end
```
