G **Bm** **C** **D** **G**
well I cant stop thinking, about the word that took my heart
G **Bm** **C** **D** **G**
nevermind the shackle, a long way from these parts
D **C** **G**
always moving, trying to cross this path
D **C** **D**
I know it s there somewhere, like a diamond in the grass

G **Bm** **C** **D** **G**
Take me back, just once before I go

there was old ms. best, and a barman without hands
and the king kong brothers, and bullets buried in the sand
jukebox juda, who reached up to your knees
she had a bird, in the space between her teeth

Take me back, just once before I go

Well the moon is dazzling, in the old and lonesome sky
And I ve been leaning, on this windowsill all night
If I would ask you, to light up my way

will I end up lost again, followed by the day

Take me back, just once before I go

Take me back, just once before I go
