## Once A Queen Daniel Norgren

The Em moves from 2 2 to 0 0 0 5 5 and then back again  $\mathbf{Em}$ Once i was the king, i took her to the town With belly full of love, i showed her all around  $\mathbf{E}\mathbf{m}$ She once was the queen, the finest of all pearls, she carried all my dreams, and lightened up my world Hmm-mmh-mmh Em when the moon comes up, i wish i hear her breathe the great white fields of green, lays heavy on her chest G  $\mathbf{Em}$ all i ever loved, my true and only one is melting back to earth and heading for the sun Hmm-mmh-mmh As i hit the road, I m lonely asking me G i got no one in the world to keep an eye on me

Hmm-mmh-mmh
