```
C#                 B
```
I won t let you down
```
                       F#
```
I will not give you up
```
                              C#
```
(Gotta have some faith in the sound)

It s the one good thing that I ve got
```
                   B
```
I won t let you down

```
                        F#
```
So please don t give me up
```
                       C#
```
 Because I would really, really love to stick around
Oh yeah

```
G#                            F#
```
Heaven knows I was just a young boy
```
                              C#
```
Didn t know what I wanted to be
```
     G#                            F#
```
I was every little hungry schoolgirl s pride and joy
```
                              C#
```
And I guess it was enough for me
```
G#
```
To win the race? A prettier face!
```
F#
```
Brand new clothes and a big fat place
```
        C#
```
On your rock and roll TV
```
   G#                                   F#
```
But today the way I play the game is not the same
No way
```
                           C#
```
Think I m gonna get me some happy

```
C#m                              C#m(7M)
```
I think there s something you should know
```
                           C#m7
```
I think it s time I told you so
```
                              C#m6
```
There s something deep inside of me
```
                           C#m
```
There s someone else I ve got to be
```
                        C#m(7M)
```

Take back your picture in a frame
                                    C#m7
Take back your singing in the rain

I just hope you understand
C#m6
Sometimes the clothes do not make the man
