G

I gotta wait for God

Dear Lord I plan each day

The things I will not do or say

But I m driven by a passion

Is it only there to tame?

It fills my heart and it calls my name and

This world that you made for us

I know, I know, is dangerous

So I ride a lot of horses

And I never even swear

Sorta like praying I m just not there

Oh God

God is watching - oh God

God is watching

But God made love

God made the rivers run

And cowboy boots and bathing suits

And the boy s skin dries in the sun...

You gotta help me, God

Help me know, four years from now

I won t believe in you anyhow

And I ll mope around the campus

And I ll feel betrayed

All those guilty summers I stayed

But then I ll laugh

That I fell for the lure

Of the pain of desire to feel so pure

And I ll bear all the burdens

Of my little daily crimes

Wish I had a God for such cynical times

Far from today
