

We All Fall Down
Darius Rucker

F **C** **G**
What makes a man work til his kids get too old to kiss and hug
Am **C** **F**
Keep on climbing that imaginary mountain when is enough, enough
Em **F** **Em** **F**
What makes a man build a kingdom only to lose his woman
C **F** **Em** **F**
How high is too high How big is too big
Em **F** **Em** **F**
How far will we go just to slip off the edge?

Am **C** **F**
Yeah, we all fall down
Am **C** **F**
Life takes us out
G
The sky starts spinning
Am **G**
When our heads get above the clouds
F **G**
The higher we fly the harder it feels when we hit the ground
Am **C** **F**
Yeah, we all fall down
Am **C** **F**
Yeah, we all fall down

F **C** **G**
How does a man pick himself up when he s let himself down
Am **C** **F**
Tell me where does he find the courage to turn his world back around?
Em **F** **Em** **F**
Will he break down and cry like someone just died
C **F** **Em** **F**
What can you say about the man he used to be?
Em **F** **G**
When he cant even speak though he s dying to scream

Am **C** **F**
Yeah, we all fall down
Am **C** **F**
When we all find out
G
The sky starts spinning

When our heads get above the clouds

And the only one to lose

How low he must go

To win back his soul
