E		3-33-x33-x33-x33		-----		-----		3-33-x33-----								

Note:

Instead of the single notes you can play the lower strings of the chord.  
E.g. instead of only the G in the first chord play G and the B or even the D.  
That makes it alot easier to play without a pick.

The rythm:

One hyphen is the sixtieth part of the 4 beat measure. You will want to  
silence the strings before each beat of the 4 beat (1 2 3 4 as noted).  
This is the way i play it, without the fancy stuff Darren puts in and without  
the Louis Armstrong part inbetween.

Chords:

	E	A	D	G	B	e
G (Var1)	3	2	0	0	3	3
G (Var2)	3	5	5	4	3	3
D	x	x	0	2	3	2
