I Wanna Know
Darren Hayes

[Intro]
Am F G (x2)

[verse 1]

Am   **F**
Canâ€™t dry my eyes,
            G
Thereâ€™s no reason anymore.
Am   **F**   **G**
I canâ€™t disguise the way Iâ€™m feeling.
            Am   **F**
No, I canâ€™t stop a hurricane
             C   **G**
Tearing down the walls of love.
              F
My heartâ€™s breaking,
              G
Weâ€™ve been through this before.

Am   **F**
Last story goes on,
                          G
But itâ€™s all still so surreal.

Am   **F**   **G**
I canâ€™t imagine days without you.
            Am   **F**
No, I canâ€™t stop an avalanche
             C   **G**
Tearing down your memory.
              F
My heartâ€™s breaking.
              G
Could you break it some more?

[Chorus]
                      F
Cuz I wanna know if
              C   **G**
You made me fly and touch the sky,
                        F
I, I, I wanna know if
              C   **G**
The angels weeped the day we met,
                        F

```
I, I, I wanna know if
                C
I canâ€™t leave without you,
Am                        G                        F
Then how am I gonna get through? Yeah...
              C           G
I donâ€™t know why we said goodbye,
But I wanna know.

[verse 2]

Am              F
I look to the sky
G
For a sign of something more.
Am           F                    G
I look to a strangerâ€™s face for comfort.
        Am                    F
But I, I canâ€™t stop the tide wave
             G
And itâ€™s so emotional.
            F
My heartâ€™s aching,
         G
But the world carries on.

[Chorus]
                  F
Cuz I wanna know if
            C                     G
You made me fly and touch the sky,
                      F
I, I, I wanna know if
          C                     G
The angels weeped the day we met,
                    F
I, I, I wanna know if
              C
I canâ€™t leave without you,
Am                        G                        F
Then how am I gonna get through? Yeah...
              C           G
I donâ€™t know why we said goodbye,
But I wanna know.

[Bridge]
F
Iâ€™ve been walking the streets,
C
Iâ€™ve been saying a prayer,
G
But I canâ€™t find you anywhere.
F
```

Donâ€™t leave me alone.
C   **G**
I gotta find you.
                   F   **C**   **G**
I need to know,
                        F   **C**
That if we made each other complete,
     G
Then why am I alone?
