

**Save Me**

**Darren Styles**

Sorry if it s not right. It was my guess from listening to the song.  
[May need a capo or to be changed to fit in with music, this is just the way  
play  
it for me to sing :)]

Darren Styles - Save Me

**F**                    **C**                    **G**  
I have been waiting, all of my life  
[**G**]  
For you to come along, and make everything alright  
**F**                                    **C**  
My body s shaking, right through my bones  
**G**  
So take me by the hand, please don t leave me here alone

**F**                                    **C**                    **G**  
And I wonder if you know just how I feel..

I Feel, Yeah..

**F**                                    **C**                    **G**  
And I wonder how i know if this is real..  
Is real

**F**  
Coz I want you to save me,  
   **C**  
Just please save me,  
   **G**  
Save me

**F**  
Coz I need you to save me,  
   **C**  
Just please save me,  
   **G**  
Save me

[Pretty Much The Same Until End]

I have been waiting, all of my life  
For you to come along, and make everything alright  
My body s shaking, right through my bones  
So take me by the hand, please don t leave me here alone

And I wonder if you know just how I feel..

I Feel, Yeah..

And I wonder how i know if this is real..

Is real

Coz I want you to save me,

Just please save me,

Save me

Coz I need you to save me,

Just please save me,

Save me

Coz I want you to save me,

Just please save me,

Save me

Coz I need you to save me,

Just please save me,

Save me

Coz I want you to save me,

Just please save me,

Save me

Coz I need you to save me,

Just please save me,

Save me
