

**When You Need My Love**  
**Darryl Worley**

Capo 2

**D**            **G**            **A**            **D**  
Two in the morning, telephone rings  
**D**            **G**            **A**  
Somehow I knew who it was  
**D**                    **G**                    **A**                    **Bm**            **Bm/A**  
Cause baby it s always the same old thing  
**G**            **A**            **D**  
When you need my love

You say it s over again and again  
This time you ve had enough  
But girl I know when you ve been fighting with him  
When you need my love

Chorus:

**A**                    **G**                    **D**  
Oh I wish I could just say no  
**A**                    **G**                    **D**  
And get you out of my heart  
**A**                                    **G**                                    **D**  
It must be nice to have some place to go  
**Bm**                                    **A**  
When your world falls apart

He ll call tomorrow with the same old lines  
And you ll forget about us  
And I ll be lonely until the next time  
When you need my love

Instrumental

Chorus

Now someday, someone s gonna love me true  
And baby when she does  
Then I wonder what you re gonna do  
When you need my love

Yeah then I wonder what you re gonna do  
When you need my love  
When you need my love (repeat several times and fade)
