The Bomb Song
Darwin Deez

The Bomb Song
By: Darwin Deez

Verse 1:

```
            F
The sky is green
                                                    Gm
Its been that way since they dropped the bomb
                 F
The clouds are brown
                  C
The city s a ghost town
              F
The city is dead
                 C
The rivers a bed now
                  Gm
The hair on my head came out
                      F
and fell on the ground

                 D          Gm
None of the sunlight is safe
             C
Litter is blowing all around the sidewalk
```

Chorus:

```
F                 C
Say you love me now
                  Bb            C
Maybe you will say you love me now
F              C  F
Say you love me please
   C                         F
Say it now that the sky is green
```

Verse 2:

```
            F
The sky is green
                                                    Gm
It s been that way since we lost the war
                 F
We looted the store
```

```
                  C
We had to eat something
              F
People are sick
                  C
The water is strychnine
                    Gm                              F
I heard about sixty nine hundred people have died
                    D
The shelter is hell
                  Gm
it smells like shit
            C                                C
Nobody knows how long were supposed to stay in it

(Chorus)

F
The sky is green
C
The sky is green
Gm
The sky is green
F
The sky is green
D
The sky is green
Gm
The sky is green
F
The sky is green
C
The sky is green

(Chorus)
```
