

Never Get Enough Das Pop

I just made a nice acoustic version of this song.
This is in no way similar to Das Pop's own acoustic version (well except for the obvious same chord progression),
but it's easier to learn and fun to play.

Start with playing a G on the a string's 10th fret.
(or the d string's 5th, or open g string, whatever you like) and then progress to a fuller G chord
(barred or open, doesn't matter, again pick what you like)

I like to play the chords like this in the intro and chorus:

	G	C	Em	D
e	-3----	0-----	0-----	2-----
B	-3----	1-----	0-----	3-----
G	-0----	0-----	0-----	2-----
D	-0----	2-----	2-----	0-----
A	-2----	3-----	2-----	0-----
E	-3----	3-----	0-----	0-----

and like this in the verses:

	G	C	Em	D
e	-3----	3-----	3-----	3-----
B	-3----	3-----	3-----	3-----
G	-0----	0-----	0-----	2-----
D	-0----	2-----	2-----	0-----
A	-2----	3-----	2-----	0-----
E	-3----	3-----	0-----	0-----

But again, play how YOU like it.

Intro: **G**
then go: **G C Em D G**

The Em and D are played twice as fast as the G and C (so they're one bar together,
while the other ones are one bar apart.
You'll get it if you listen to the song.
Listen to the bassline for the rhythm when this part comes along again.

Keep me	up night	and day
G	D	C
