## Ender Will Save Us All Dashboard Confessional

D It s just like you to contest you wear it like a label on your breast don t you see what this takes of me? A certain callousness complies with your charm & in your pride a hopeful look draped in despise. I want to give you whatever you need. CC What is it you need? Is it what I need? I want to give you whatever you need. What is is you need? Is it within me? It s hard to explain how I am getting by on so little from you. It s hard to believe that I would let myself get so wrapped in you. There s got to be something that would be worthwhile for me to give to you. We need a connection but you seem to push me far away from you.

(sorry I don t know the next part. Here are the words though. Your going to have to listen to the CD/tape to get the rest. Sorry again)

The harder I push the further I fall.

Well you don t mind me being headstrong.

But you don t want to sing along.

Maybe it s trite but I can always be wrong

Try not to be wrong.

(Thanks for your time...Enjoy the song...Sorry about the last part) ->Mike
