So Impossible
Dashboard Confessional

So Impossible
i saw this and decided to correct a few mistakes

tuning: **F Bb Eb G# C F**

There are only 5 chords in this song:

```
 Eb: 0   C#: 0    B: 0   G#: 0   Bb: 0
    0       0        0      0       0
    6       8        6      3       x
    6       9        7      4       6
    4       9        7      4       6
    x       7        5      2       4
```
Eb
So she says,
C#   **B**
Everyone s gone to the party.
        C#   **B**
Won t you come if I come with a friend for your friend?
      C#
I d be so pleased to see you
B   **C#**   **B**
out of the classroom, wearing the smile that I bring you.
      Bb   **B**
I was hoping to learn a few things like:
C#   **G#**   **Bb**
Do you, Do you like dishing the dirt on the whole class
                  B
and talking the big smack or playing the fool
C#   **G#**
or wearing all of the latest fashions
     Bb   **B**
or plucking your new trends or wearing your old threads
C#   **G#**
if you like coffee in the evening?
          Bb   **B**   **C#**   **G#**
These are a few things that I d like to know.
                      Bb   **B**
That I d like to know.

So I say,
          C#   **B**
I ve been scheduled to work, but I ll call in
     C#   **B**
and my friend isn t busy, he ll be happy to join me
    C#   **B**   **C#**   **B**
and maybe my friend and your friend will hit it off

```
    C#        B
or maybe we will.
                    C#
I m dying to know!
                        G#                              Bb
Do you, Do you like dreaming of things so impossible
            B                          C#
or only the practical or ever the wild
                        G#
or waiting through all your bad bad days
        Bb                        B
just to end them with someone to care about
            C#
and do you like making out and long drives
    G#                              Bb              B
and brown eyes and guys that just don t quite fit in?
C#      G#      Bb      B
Do you like them?
    C#
So yes,
        G#            B
I ll see you there.
```
