You never said you never said you never said
                D#m   F#
That it would be this hard
B   G#m   D#m   F#
Love is meant to be forever now or never seems to discard
B   G#m
There s gotta be a better way for me to say
       D#m   F#
What s on my heart without leaving scars so
C#m   F#
Can you hear me when I call your name?

G#m   D#m
And when you fall apart
E   B   F#
Am I the reason for your endless sorrow?
G#m   D#m   E   B
There s so much to be said
G#m   D#m
and with a broken heart
E   B   F#
Your walls can only go down but so low
C#m   F#
Can you hear me when I call your name?

B G#m   D#m   F# x2

B   G#m   D#m   F#
Complicated situations are the makings of all that s wrong
B   G#m   D#m   F#
And I ve been standing in the river of deliverance way too long
B   G#m
There s gotta be a better way for me to say
       D#m   F#
What s on my heart without leaving scars?
C#m   G#m
Can you hear me when I call your name?
C#m   F#
So can you hear me when I call your name?

G#m   D#m
And when you fall apart
E   B   F#
Am I the reason for your endless sorrow?
