The Shine
Dave Hause

Dave Hause â€" The Shine

G#m   E x3
B

B
It was exponential Memphis from a thousand feet
          G#m
But when we landed we were black and blue
B
Running through the city with apocalypse eyes
    E   **F#**
Just miles of streets with nothing to do

     B
Your warm heart had been frozen by some cold ideas
          G#m
You tried to tell me but it came out wrong
  B
I changed my strings, shaved my face and
        E   **F#**
Locked myself into the tower of song
        E   **F#**
It gets lonely in the tower of song

   G#m   **E**   **B**   **F#**
But I, I don t stutter when I sing
G#m   **E**   **B**   **F#**
My melodies grow little wings
G#m   **E**   **B**   **F#**
Huddled here grinding tears into red wine
G#m   **E**   **B**
Meet the darkness with the shine

B
We ve got all our sons and daughters virgin blood on our hands
              G#m
They ll be the offspring of these ugly wars
        B
But if we kill off all our devils, will our angels die?
        E   **F#**
I found love living life like a whore

   B
So here s some trusty chords and a melody
        G#m
A pound of flesh for the brutal throng

```
        B
For the heretics and walking dead and red headed girls
         E                        F#
From the fool up in the tower of song
      E                   F#
I m a fool in a tower of song
          E                        F#
Make the lonely fool smile, sing along

G#m             E             B      F#
Cause we don t stutter when we sing
G#m     E                 B      F#
Our melodies grow little wings
G#m     E             B             F#
Huddled here grinding tears into red wine
G#m        E                 B    F#
Meet the darkness with the shine
G#m        E                 B    F#
Meet the darkness with the shine
G#m        E                 B
Meet the darkness with the shine

E   F#   x14

G#m   E   B   F#   x4

G#m   E   B
```
