

## We Could Be Kings

Dave Hause

I m not sure if this is 100% correct (especially the Bridge) but there was no other tab for the song so I created one. Feel free to comment :)

### VERSE

**B**

So this is rejection

**G#m**

And it s bringing you down

**E**

He told you that he d find work soon

**F#**

Then he stopped coming around

**B**

That was the summer of sweet nights

**G#m**

He used to take you for rides

**E**

But it all changed in the backseat

**F#**

He came inside

### PRECHORUS

**G#m F# E**

Well he s seen enough to know

**B G#m F# E B**

He s old enough to know what s right from wrong

**G#m F# E B F#**

I know how hard it is to see things through

### CHORUS

**B E**

Oh no did it rip you apart?

**G#m**

To be told we could be kings

**E F#**

When we were damned from the start

**B E**

Oh no did it rip you apart?

**G#m F#**

They told us we could be kings

**E F# B**

When we were damned, damned from the start

### VERSE

You told him you loved him

But pushing come to show

There were no easy answers  
Mixing money and blood  
He was too young to know better  
And you were unemployed  
The sergeant promised a cake walk  
But then he got deployed

PRECHORUS

I ve seen enough, enough to know  
It s not about which side you re on  
I know how hard it is to keep it in

CHORUS

Oh no did it rip you apart?  
To be told we could be kings  
When we were damned from the start  
I know that it rips you apart  
They told us we could be kings  
When we were damned, damned from the start

BRIDGE

**B** **E**  
We ve been living to the left of the dial  
**G#m** **E**  
Hoping drinks and denial will keep us here

**B** **E**  
I m not promising you some bright side  
**G#m**  
We re trying to break your stride  
**E**  
But you asked me, you asked me

**B**  
He was gone in an instant  
**G#m**  
They say nobody was spared  
**E**  
Not gonna tell you he loved you  
**F#**  
Not gonna tell you he cared

PRECHORUS

Well I ve seen enough, enough to know  
Sometimes with the truth you gotta let it go  
I know how hard it is to keep it in

CHORUS

I won t go and rip you apart  
And tell you, you could be king  
I don t wanna break your heart  
I won t go and rip you apart  
So open wide and you ll sing

**E**  
Cause we re all damned  
**G#m** **F#**  
Open wide and you ll see

**E**

**F#**

**B**

**G#m F# E B 2x**

Cause we re all damned, damned from the start

**(B)**

**G#m F# E B**

We re damned from the start
