

**Cortez The Killer**  
**Dave Matthews Band**

This is a great jam song, 3 chords repeated over and over for the entire song

**Em7, D, Am7**

Listen to the song. On the **Em7**, use your pinky to change between open and 3rd fret on the B string. Also, on the **Am7**, index finger is used to alternate between open and 1st fret on the B string.

Check out some of the other tabs for the solos/fills played on top of this. Better yet, just jam and make up your own licks.

Enjoy
