The Chords in this song are G, and Cadd9. You want to play a G with the little finger on the High E, for those 2 chords, but only in the verse and the chorus.

In the bridge you still play those same chords except for the Cadd9. You can just take your little finger off the high E for That in the bridge.

Note: There is a second bridge in the song but it is sort of complicated, so I will get it up as soon as possible.
