

**Crush**

**David Archuleta**

Hey. =] This is my first tab, so it s probably not 100% correct.

I m really not sure about the intro though...

If you re playing this on guitar, use a capo on the first fret, and play the chords

the #, and for the Cm, play Bm with a capo - first fret.

Intro: **D# A# Cm G#**

**G#**

I hung up the phone tonight

**D#**

**Cm**

Something happened for the first time, deep inside

**A#**

It was a rush, what a rush

**G#**

Cause the possibility

**D#**

**Cm**

That you would ever feel the same way about me

**A#**

It s just too much, just too much

**Cm**

Why do I keep running from the truth?

**D#**

All I ever think about is you

**G#**

You got me hypnotized, so mesmerized

**A#**

And I just got to know

[Chorus:]

**G#**

**D#**

Do you ever think, when you re all alone

**Cm**

**A#**

all that we could be, where this thing can go?

**Cm**

**A#**

Am I crazy or falling in love? Is it really just another crush?

**G#**

**D#**

Do you catch a breath, when I look at you?

**Cm**

**A#**

Are you holding back, like the way I do?

**Cm**

Cause I m tryin , tryin to walk away

**A#**

**G# D#**

**A# Cm**

But I know this crush ain t going away, going away

**G#**

Does it ever cross your mind

**D#**

**Cm**

When we re hangin spendin time, girl, are we just friends?

**A#**

Is there more? Is there more?...

**G#**

See it s a chance we ve gotta take

**D#**

Cause I believe that we can make this into

**Cm**

**A#**

Something that will last, last forever...forever

[Chorus]

**Cm**

Why do I keep running from the truth?

**D#**

All I ever think about is you

**G#**

You got me hypnotized, so mesmerized

**A#**

And I just got to know

[Chorus x2]
