When We Fell " David Bazan

At the \* walk down the D string to the C  
like this:

**G F? A? ? C**

3 3 3 3 0  
3 3 3 3 1  
0 0 0 0 0  
0 3 2 0 2  
2 - - - 3  
3 - - - -

Hope that made sense,

Intro: **C F C**  
**F**

With the threat of hell hanging over my head like a halo

**G C**

I was made to believe in a couple of beautiful truths

**F C**

That eventually had the effect of completely unravelling

**G C C7**

The powerful curse put on me by you

Chorus

**F**

When you set the table

**C C7**

When you chose the scale

**G**

Did you write a riddle

**C C7**

That you knew they would fail

**F**

Did you make them tremble

**C Em Am**

So they would tell the tale

**G \* C C7**

Did you push us when we fell

Verse Chords:

If my mother cries when I tell her what I have discovered

Then I hope she remembers she taught me to follow my heart

And if you bully her like you've done me with fear of damnation

Then I hope she can see you for what you are

Chorus Chords:

What am I afraid of

Whom did I betray  
In what medieval kingdom does justice work that way  
If you knew what would happen  
And you made us just the same  
Then you my Lord can take the blame
