One day you re near and then you go		

Bridge:

**D**                    **C**                                    **G C F\***  
Here is a photograph what do you see  
**C**                    **Fmaj7**                                    **F\***

There is nothing there but me  
**D**                    **C**                                    **G C F\***  
Oh, in the aftermath its hard to breathe  
**C**                    **Fmaj7**                    **F\***  
And harder to believe

Repeat Verse/Main riff:

They deceive you  
There was a wall you had to find  
The echoes in your mind

You ll surrender  
These are the lessons that you learn  
No body hears, no one s concerned  
One days its clear and then you burn

Repeat Bridge:

Here is the wishing well i jumped into  
Nothing came true  
Here is a looking glass what do you see  
Sorry it s just me

Even just a sound and all your cards are down  
Even just a sound  
Let me lie you down, don t have to make a sound  
I would lie you down

It surrounds you  
Sometimes it s easy to believe  
Sometimes it hurts more then it seems

Now it s over  
These are the scars you never show  
There was a warning sign, you know

One day your near and then you go x3
