Never Get Old
David Bowie

intro:
```
    e|---------------------------------------------------------------
    b---------------------------------------------------------------
    g---0-0-0-0-0-0-0-0-0-0-0-0-0-0-2---4-5-5-5-5-5-5-4-4-4-4-4-4--

    e|---------------------------------------------------------------
    b---------------------------------------------------------------
    g---2-2-2-2-2-2-2-2-2-2-2-4-4-4-4-2-2-2-2-0-0-0-0-------------
    (x2)
```

(in verse 1 you can touch the intro or like is in the verse)

verse 1:
```
    G
       Better take care
    G#                    G
    Think I better go, better get a room
    F
    Better take care of me
    Again and again
    G
      F                             Em
    I think about this and I think about personal history
  G
        Better take care
    G#                          G
    I breathe so deep when the movie gets real
    F
    When the star turns round
    Again and again
    G                                   F
    He looks me in the eye says he s got his mind on a countdown 3-2-1
    Em

    G
    Forever
    G#                              G                    F
    I m screaming that I m gonna be living on till the end of time
    F
    Forever
        G                      F
    The sky splits open to a dull red skull
          Em
    My head hangs low  cause it s all over now
```
Chorus:
```
    C                       C
```

```
   C                                    F
   And there s never gonna be enough money
                                       F
   And there s never gonna be enough drugs
   F                          C
   And I m never ever gonna get old
                                  F
   There s never gonna be enough bullets
                                 F
   There s never gonna be enough sex
   F                          C
   And I m never ever gonna get old
                                   F
   So I m never ever gonna get high
                                  F
   And I m never ever gonna get low
   F                          C
   And I m never ever gonna get old

   C  D  G  F  C  F  C  D
```

VERSE1:
```
   G
   Better take care
   G#                            G                       F
   The moon flows on to the edges of the world because of you
   Again and again
        G                         F               Em
   And I m awake in an age of light living it because of you
   G
   Better take care
        G#                            G                       F
   I m looking at the future solid as a rock because of you
   Again and again
   G                          F
   Wanna be here and I wanna be there
           Em
   Living just like you, living just like me
    G
   Forever
   G#                          G                       F
   Putting on my gloves and bury my bones in the marshland

   Forever
   G                              F                           Em
   Think about my soul but I don t need a thing just the ring of the bell

   in the pure clean air
```
Chorus:
```
   C                       C
   C                                     F
   And I m running down the street of life
                                  F
```

```
And I m never gonna let you die
 F                              C
And I m never ever gonna get old
                            F
And I m never ever gonna get
                     F
I m never ever gonna get
 F                            C
I m never ever gonna get old
                            F
And I m never ever gonna get
                            F
And I m never ever gonna get
 F                      C
Never ever gonna get old.

C   D   G
