INTRO: **Am Bb Am G**...repeat for fade in

```
Am                            F
President Joe once had a dream
                        E
The world held his hand gave their pledge
                      Am                        Em
So he told them his scheme for a Saviour Machine
Am                                            F
They called it The Prayer, its answer was law
                E
Its logic stopped war, gave them food
          Am                            E
How they adored till it cried in its boredom
```

```
G              F#m         Am          Bb
Please don t believe in me please disagree with me
G            F#m      Am                    Bb          C
