

One Fine Day
David Byrne

D A G D
Saw the wandrin eye- inside my heart
D A G D
Shouts and battle cries- from ev ry part
D A G D
I can see those tears- ev ry one is true
D A G D A G
When the door appears- I ll go right through---oooh

D A G D
I stand in liquid light- like ev ryone
D A G D
I built my life with rhymes- to carry on
D A G D
And it gives me hope- to see you there
D A G
The things I used to know- that one fine

CHORUS

D A G
One Fine Day...

D A G D
In a small dark room- where I will wait
D A G D
Face to face I find- I contemplate
D A G D
Even though a man- is made of clay
D A G
Ev rything can change- one fine-

CHORUS

D A G
One Fine Day...

Then before my eyes- Is standing still
I beheld it there- a city on a hill
I complete my tasks- one by one
I remove my masks- when I am done

Then a piece of mind- fell over me
In these troubled times- I still can see
We can use the stars " to guide the way
It is not that far- one fine".

CHORUS
