

**Time And Again**  
**David Coverdale**

Time and again

Coverdale

Verse is not spot on but the chorus is somewhere near! Please correct me,  
but be gentle - its my first. Cheers

**D** **D6**  
Lately, I realise that it s you  
**G**  
You are the one who makes everything right,  
**D**  
summer days and winter nights  
**D** **D6**  
Slowly, I open my eyes and your smile is there to greet me  
**G**  
and whisper words to tell me it s alright,  
**D** **Dsus D Asus D Asus**  
I ll stay by you in your darkest night

**G** **A** **D**  
Time and again the situation shows,  
**D7**  
you make it better...  
**G** **A** **D**  
Time and again I realise,  
**D7** **G**  
you are the morning of my day...  
**A** **D**  
Time and again my feelings let me know  
**D7**  
you make it better...

**G** **A**  
We wasted words on conversation,  
**G** **A**  
cos all I wanna do is just talk about,  
**D**  
the woman I love, woman I love...

**D**  
I never thought I could be this way,  
**D6**  
when I hold you in my arms

**G**

I know I just wanna stay this is the place I should be,

**D** **Dsus D Asus D Asus**

in sweet harmony with the woman I love..

**Bm A Bm**

You and I could always

**F#**

talk it over as friends

**Bm A**

and you never, ever worried,

**Bm F# F#7**

we always make it good in the end..

**G A D**

Time and again the situation shows,

**D7**

you make it better...

**G A D**

Time and again I realise,

**D7 G**

you are the morning of my day...

**G A D**

Time and again my feelings let me know

**D7**

you make it better...

**G A**

No wasted words on conversation,

**G A**

a necessary seperation

**G A**

cos all I wanna do is just talk about,

**D Dsus D Dsus D Asus D**

the woman I love,

the woman I love...
