Theyâ€™re building the new berlin wall  
Califronia to texas et al  
But you know that you cant catch em all  
Yet youâ€™re building the new berlin wall

Thereâ€™s a sheriff in arizona  
Whoâ€™s plotting his nazi regime  
While some SS patriot stands guarding the desert  
Fulfilling his bigoted dreams

Theyâ€™re building the new berlin wall  
From san diego to Brownsville so tall  
The poor huddled masses, weâ€™ll deport them all  
Weâ€™re building the new berlin wall

See Mexican men rounded up in Juarez  
Women and children behind a razor wide fence  
Herded like cattle to some government bus  
No one knows where they were sent

See I tried to look closer  
Some cop he suggested  
That I keep my eyes to myself  
He pointed his gun said move along son  
Unless you want trouble yourself

Theyâ€™re building the new berlin wall  
California to texas et al.  
If youâ€™re a Mexican  
Youâ€™re a criminal until proven a citizen

You better check the italians and check the Chinese  
Check the scandinavians and the Portuguese  
You better id the irish, question the british  
Check them out now could you please

Check the Czechâ€™s while your at

Check the germans for their citizenship  
Check out those jewish, check out the polish  
Are they kosher are they legit

Theyâ€™re building the new berlin wall  
Now weâ€™re trapping you all in so you canâ€™t leave at all  
If your rich you can shop in our stores  
But if your poor you can find the back door

See I donâ€™t see freedom with a twenty foot fence  
Beefing up borders with rich arrogance  
As the statue of liberty  
Stagers drunkenly into the sea

Lets not forget now what gave the power  
Youâ€™re empire was built by the poor  
Now that youâ€™re empire has seen finer hours  
Your empire is locking the door

Youâ€™re building the new berlin wall  
Say canâ€™t let â€˜em all in cause the economy will fall  
Well it already did and youâ€™re greed caused it all  
Yet youâ€™re building the new berlin wall

So send of your battalions of gun toting thugs  
End this unwinnable war against drugs  
Legalize all of it, end the cartels  
Crack the black market, tax it as well

Take all that money for rehab and schools  
Break this unbreakable circle of fools

Tear down the border fence  
Open the doors  
Send us your hungry your sick and your poor.
