Hold Still David Fonseca

Intro: C G Em F C G Em F In this little town cars they don t slow down The lonely people here They throw lonely stares Into their lonely hearts I watch the traffic lights I drift on Christmas nights I wanna set it straight I wanna make it right But girl you re so far away Αm Oh, hold still for a moment and I ll find you I m so close, I m a small step behind you girl And I could hold you if you just stood still I jaywalk through this town I drop leaves on the ground But lonely people here Just gaze their eyes on air And miss the autumn roar I roam through traffic lights I fade through Christmas nights

I wanna set it straight
I wanna make it right
But man you re so far away
Oh, I ll hold still for a moment so you ll find me
                    G
You re so close, I can feel you all around me boy
                          C G Em F
I know you re somewhere out there
                         C G Em F
I know you re somewhere out there
