

**Voices That Care**  
**David Foster**

Simplified acoustic rendition. Tune your guitar down one half step if you'd like to use these chords to play along with the original song.

**E** **B**  
Lonely fear lights up the sky  
**C#m** **A**  
Can't help but wonder why, you're so far away  
**E** **B**  
There you had to take a stand  
**C#m** **A**  
In someone else's land. Life can be so strange  
  
**G#m** **A**  
I wish we never had to choose,  
**C#m** **B**  
To either win or lose, that we could find a way  
**G#m** **A**  
But I won't turn my back again,  
**C#m** **A**  
Your honor I'll defend, so hurry home and till then  
**B**  
Till then --

CHORUS:

**E** **B** **C#m**  
Stand tall, stand proud  
**A** **C#m** **B**  
Voices that care are crying out loud  
**E** **A** **C#m**  
And when you close your eyes tonight,  
**A** **B** **E**  
Feel in your heart how our love burns bright

[**A** **C#m** **B**]

**E** **B**  
I'm not here to justify the cause  
**C#m** **A**  
Or to count all the loss, that's all been done before.  
**E** **B**  
I just can't let you feel alone  
**C#m** **A**  
When there's so much love at home we're sending out to you

**G#m** **A**  
 All the courage that you ve known  
**C#m** **B**  
 The bravery you ve shown clearly lights the way  
**G#m** **Asus2**  
 We pray! To make the future bright  
**C#m**  
 To make the wrong things right  
**B**  
 Right or wrong, we re all praying you remain strong  
 That s why we re all here and singing along
