Someday
David Gates

SOMEDAY
(David Gates)

Intro:**DM7**-**G**-**DM7**-**G**
DM7   **G**   **DM7**
Love me, forget about tomorrow now and love me
         C   **Em**
There s time enough to borrow from another day
                      Em7
So just for now let s touch and
      A7   **D**   **G**
Do the things that drive my cares away.

DM7   **G**   **DM7**
Hold me, forget the world outside tonight and hold me
    C   **Em**
And by the flickering candle light our love will glow
                      Em7
And then we ll share the words and feelings
A7   **D**   **D7**   **G**
No one else will ever know.

Refrain:
                F#m   **Em**
We should never end
       A7   **D7**   **G**
Hand in hand we ll walk the night forever
                   F#m
But if it can t be so
      Em   **A7**
There s one more thing I need before I go.

   DM7   **G**   **DM7**
Just kiss me and tell me when I m gone how much you miss me
   C   **Em**
Forget the lonely in between and then someday
                 Em7
We ll open up our eyes and see
    A7   **D**
The world we thought so far away
C   **B7**   **E**
Someday...someday.
