

Cry From The Street
David Gilmour

Introdução com riffs e variações em **F#m**

F#m (continuar riff)

Black shadows dance

Beyond the neon glow

There s rumors in your head

And just one way to go

Oh so tight

It makes your blood run cold

The way is blind

Try to save your soul

D E/D

Don t even pray

F#m

Just cry from the street

It s fine as you leave

The one they keep at home

So you love someone

That you thought you owed

You know it s a crime

But what can you do?

That s the price you pay

With each turn of the screw

D E/D

But don t pay no mind

F#m

Just cry from the street

You really love the night

Even though you re alone

It s such a cryin shame

That things are so wrong

It s the sign of the scream

That it blinds your feet

I guess the chance is ours

You wish to stay and sleep

D E/D

But don t even pray

F#m

Just cry from the street

(solo)
