

**Everytime**  
**David Gray**

I couldn't find a tab for this song, So I've pieced together my own tab. Its not exactly how David plays it but I think it sounds pretty good.. Also my first tab so I'm open for constructive criticism...

(Verse)

D, G, Cadd9

When playing the D, I hammer on the high e string sometimes to Dsus4

D	G	Cadd9
Down	from the doorway	and into the street
D	G	Cadd9
I hear	the morning	bell
D	G	Cadd9
Over	and over	the pattern repeat
D	G	Cadd9
I hear	the morning	bell

D G Cadd9  
And all the faces cold as stone

D G Cadd9  
In the January chill

D G Cadd9  
You have led me into worlds unknown

D Cadd9  
And I m walking there still

(Chorus)

D Dsus4 D  
Every time now

Cadd2  
Every time now

D Dsus4 D  
I think of you mine now

Cadd9  
I just can t contain

D Dsus4 D  
I m seven feet tall and

Cadd9  
There s nightingales calling

G  
Shooting stars falling

Cadd9 G  
Like jewels in the rain

(Verse)

I ask myself, I ask myself  
Can this life be the same  
That spun me round and put me down  
And filled me up with shame  
And all the heads are turning now  
Down the Tottenham Court road  
Cause I just can t help but sing it out  
Cause I just might explode

(Chorus)

Every time now

Every time now  
I think of you mine now  
I can t comprehend  
The saxophones blowing  
Cherry trees snowing  
Emeralds growing  
Right here in my hand

(Now stay with the chorus chords)

**D**                                    **Dsus4**            **D**  
A dance in the moonlight

**Cadd9**  
So high on a June night

**D**                                    **Dsus4**            **D**  
Magazines strewn right

**Cadd9**  
Over the chair

**D**                                    **Dsus4**            **D**  
Your spine a white ladder

**Cadd9**  
Your eyes singing sadder

**G**  
Nothing else seems to matter

**Cadd9**                                    **G**  
As soon as you re there

(and continue with chorus)

And every time now  
Every time now  
I think of you mine now  
I just can t contain  
I m seven feet tall and  
There s nightingales calling  
Shooting stars falling  
Like jewels in the rain

**D**                                    **Dsus4**            **D**            **Cadd9**  
Every time now

**D**                                    **Dsus4**            **D**            **Cadd9**  
Every time now

**D**                                    **Dsus4**            **D**            **Cadd9**
