

**From Here You Can Almost See The Sea**  
**David Gray**

**Em7**

Come the weekend  
And we ll long gone baby  
Just like the old days  
Letting the world flow through me

**F#5**

Just a parasite in a line  
I m smoking, killing the time  
How long s a piece of twine

**Cm**

What use is sympathy **Em7**  
From here you can almost see the sea

**Em7**

If you would hold still  
Could make a clean incision  
Then we could sit back  
And watch the demolition

**F#5**

Little puppy dog in a box  
Somebody s picking the locks  
Must want the darn from the socks

**Cm**

Here comes the cavalry **Em7**  
From here you can almost see the sea

**Bm** **E5** **Em7**

Just another fool in the line

**Em7**

I dream of high clouds  
Flushed with the light of daybreak  
I m gonna dive in  
To water so cold it makes your bones ache

**F#5**

Fingers, knees and knuckles scraped  
All of the rubbish heaped  
a piece of cardboard taped **Cm**  
Up where the bedroom window pane used to be  
From here you can almost

**Em7**

From here you can almost see the sea

**Bm** **E5** **Em7**

Just another fool in the line

**Bm** **E5** **Em7**

Just another fool in the line

**Em7**

I saw a film once  
Where all the airholes froze up

A killer whale swam  
Under the blue ice  
Until her heart stopped
