

The Other Side
David Gray

Chords riff

	Dm	Dsus4	G	G7	F	C	A	Bb	E
E	--1---3-----3---1---1---0---0---1-----0-----1-0---								
B	--3---2-----0---0---1---1---2---3---0-----3---								
G	--2---2-----0---0---2---0---2---3---1-----								
D	--0---0-----0---0---3---2---2---3---2-----								
A	--0---0-----2---2---3---3---0---1---2-----								
E	-----3---3---1-----0-----								

Notes:

The Dm chord in the intro/chorus is only strummed for one beat, then immediately you play the Dsus4 chord.

The G in the intro/chorus is strummed for two beats, then G7 for one, then you play riff directly into the Dm and the Dsus4.

All that together is the intro/chorus.

Looks like this:

	Dm	Dsus4	G	G	G7	riff
E	--1---3---3---3---3---3---1---1-0---					
B	--3---2---2---2---0---0---0-----3-					
G	--2---2---2---2---0---0---0-----					
D	--0---0---0---0---0---0---0-----					
A	--0---0---0---0---2---2---2-----					
E	-----3---3---3-----					

The riff is followed immediately by a Dm. You don't have to play the riff at all if you don't want, you can just strum another G7 chord, but it will sound more like David's piano if you at least play the riff a few times.

Plus your index finger is already on the F if from fretting the G7, and if you fret the D with your ring finger, the riff sets your fingers up for the Dm.

I tried to space the position of the chords to go with the lyrics. Play along with the song, you should be able to hear the changes.

Meet me on the other side

G G7 riff Dm Dsus4

Meet me on the other side

G G7 riff Dm Dsus4

I ll see you on the other side

I ll see you on the other side

I know it would be outrageous

To come on all courageous

And offer you my hand

To pull you up on to dry land

When all I got is sinking sand

The trick ain t worth the time it buys

I m sick of hearing my own lies

And love s a raven when it flies

Meet me on the other side

Meet me on the other side

I ll see you on the other side

I ll see you on the other side

Honey now if I m honest

I still don t know what love is
