[Intro]
F#   C#   G#m x2

[Verse 1]
F#   **C#**   **G#m**
 Blocked your number then let you come and spend the night
F#   **C#**   **G#m**
 Couple animals, all we do is fuck and fight, ooh
F#   **C#**   **G#m**
 No apologies but we have the best excuses
F#   **C#**   **G#m**
 Making promises, even when we do, it s useless, useless

[Pre-Chorus]
N.C.
 Cause when we say it s over

[Chorus]
    F#   **C#**   **G#m**
We do it again on nights we re alone
                         F#   **C#**
Say that we won t be more than just friends
      G#m
I know that you re home, so pick up the phone
        F#   **C#**   **G#m**
 Cause I wanna be where you are
                              F#
So let s just blame it on love
          C#   **G#m**
When the rules fall apart
                              F#   **C#**   **G#m**
Let s just blame it on love, blame it on love (blame it on love)
                              F#   **C#**   **G#m**
Let s just blame it on love, blame it on love (blame it on love)
                              F#
Let s just blame it on love

[Verse 2]
                              C#   **G#m**
Dropping bottles that we finished from the night before, hey yeah, yeah
F#   **C#**   **G#m**

```
 First we re throwing knives, then we on the kitchen floor, uuh
F#          C#                        G#m
 No apologies but we have the best excuses, no
F#                      C#                        G#m
 We can lie about it, baby, but we know what the truth is, the truth is

[Pre-Chorus]
N.C.
 Cause when we say it s over

[Chorus]
   F#       C#      G#m
We do it again on nights we re alone
                    F#            C#
Say that we won t be more than just friends
    G#m
I know that you re home, so pick up the phone
      F#      C#          G#m
 Cause I wanna be where you are
                        F#
So let s just blame it on love
        C#          G#m
When the rules fall apart
                    F#                C#              G#m
Let s just blame it on love, blame it on love (blame it on love)
                    F#              C#              G#m
Let s just blame it on love, blame it on love (blame it on love)
                  G#m
Let s just blame it on love

[Bridge]
     B                        D#m
Baby, you can hold it against me
    C#                        G#m
Long as you keep holding me against you
        B
 Cause we get so high on the chemistry
C#
 Every time you leave

[Chorus]
   F#       C#      G#m
We do it again on nights we re alone
                  F#            C#
Say that we won t be more than just friends
   G#m
I know that you re home, so pick up the phone
      F#      C#          G#m
 Cause I wanna be where you are
                        F#
So let s just blame it on love
        C#          G#m
When the rules fall apart
```

```
                        F#
Let s just blame it on love

[Outro]
            C#       G#m
We do it again on nights we re alone
                     F#              C#
Say that we won t be more than just friends
    G#m
I know that you re home, so pick up the phone
       F#       C#            G#m
 Cause I wanna be where you are
                           F#
So let s just blame it on love
         C#          G#m
When the rules fall apart
                     F#                C#                  G#m
Let s just blame it on love, blame it on love (blame it on love)
                     F#              C#              G#m
Let s just blame it on love, blame it on love (blame it on love)
                     F#
Let s just blame it on love
```
