[Chorus]

When you re faded and alone  
And need somebody on the phone  
Let it be me, let it be me  
When she leaves you in the rain  
You need a high to kill the pain  
Let it be me, let it be me  
N.C.  
And I ll show you love the way it s posed to be.

[Post-Chorus]

[Verse]

Summer days, winded nights  
Ride or die right by you side  
Killing time till you re ready to see I m all you need  
You re a drunk, you re a fool  
I m a saint, so right for you  
When the ship goes down

Look in your dreams, that s where I ll be
